Nami Island is one of the most popular day trip destinations from Seoul, receiving millions of visitors annually. Much of its popularity has to do with the success of the Korean drama series Winter Sonata which was filmed in part on the island.

Seoraksan Mountain is one of Korea's most famous tourist destinations that stretches across several areas including Sokcho, Goseong, Inje, and Yangyang in Gangwon-do. It was designated as Korea's fifth national park in 1970 after the designation of Hallyeohaesang National Park, and as Korea's first UNESCO Biosphere Reserve in 1982. It has been also registered in the IUCN Green List of Protected and Conserved Areas, which is the global standard of best practice for area-based conservation.

Surrounded by Gyeongbokgung Palace, Changdeokgung Palace and Jongmyo Shrine, **Bukchon Hanok Village** is home to hundreds of traditional houses, called hanok, that date back to the Joseon dynasty. The name Bukchon, which literally translates to "northern village," came about as the neighborhood lies north of two significant Seoul landmarks, Cheonggyecheon Stream and Jongno.

Everland Resort entertains visitors through attractions in the five themed areas of Global Fair, American Adventure, Magic Land, Zootopia, and European Adventure. The amusement park is decorated according to different themed festivals throughout the year, including Tulip Festival, Rose Festival, Summer Splash, Halloween Festival, Romantic Illumination, and more. One of the park's most famous rides is T-Express, Korea's first wooden roller coaster, popular among young visitors.

Seongsan Ilchulbong (Sunrise Peak) is one of the special places that people visit to see the sun rise as each old year turns to the new. It's a tuff cone crater that was formed when a volcano erupted under the ocean. It was designated as Natural Monument No.420 in 2000. On the top of Seongsan Ilchulbong stand 99 chiseled rocks in a crown-like formation, and between them rests a large meadow.
